ROYAL JELLY BENEFITS

What's royal jelly, you might ask? Well, royal jelly is a milky-white, nutrient-rich liquid produced by worker bees and is most known for being the so-called "superfood" for the queen bee in the hive - kind of like a honey bee's version of mother's milk. In cultures around the world, royal jelly has been used to promote a long and healthy life, and because it's such a precious substance, historical use was reserved mostly for royalty.

Royal jelly has special properties that can help enhance the appearance of damaged-looking skin. It's rich in fatty acids and proteins, which are good for improving the skin's overall health, and is known as a collagen-enhancer which helps prevent fine lines and wrinkles. In our Body Cream with Royal Jelly, you'll find this extraordinary ingredient coupled with other plant-based ingredients to deeply moisturize your skin while promoting regrowth and skin elasticity.

ESSENTIAL OILS

Including the wonderful use of Essential Oils in your daily life can be an excellent source of natural wellbeing.

WHAT DOES READY TO USE MEAN?

Time is everyone's best friend, which is why you will find a "Ready to Use" label on all of our Essential Oils, meaning they are incredibly practical while maintaining a therapeutic grade.

The advantage of "Ready to Use" Essential Oils is that a carrier, like fractionated coconut oil, allows for an easier application on the skin, while also hydrating and moisturizing. You will also find the suggested amount of drops under "directions" according to their dilution, this way you will be able to enjoy the benefits that these essential oils can offer in your life.

Since 2018, Blen has
been a part of the

**INTERNATIONAL FEDERATION OF
ESSENTIAL OILS & AROMA TRADES**

DIFFERENT WAYS TO USE & ENJOY ESSENTIAL OILS

INHALE

One of the safest and most common ways to enjoy the benefits of our Essential Oils is through inhalation. Simply open a bottle of any of our Essential Oils and deeply inhale their scent a few times to experience their benefits.

DIFFUSING

Another fun and relaxing way to enjoy an Essential Oil is by diffusing it through a diffuser. Just add some water to the basin of your diffuser and add 3-10 drops of your favorite essential oil(s). Turn on the diffuser and enjoy its wonderful aroma.

TOPICAL

Applying Essential Oils topically is another way to enjoy and benefit from these amazing products. Simply put a few drops of oil into the palms of your hands, behind your ears, on the temples, and even on the nape of your neck. Remember, it's always important to perform a patch test on your skin when trying out a new Essential Oil.
